

MODEL CDP-100 SQUARE CEILING DIFFUSER LOUVERED FACE

APPLICATION

CDP series directional diffuser provides an aesthetically pleasing solution to air distribution requirements, regardless of room configuration

FEATURED STANDARD CONSTRUCTION

- Frame : Constructed from heavy duty extruded aluminum material of 1.25mm thickness
- Inner Core: Constructed from pressed aluminum using a series of integral cross braces which interlock to secure discharge vanes and preclude rattling. The diffuser core is equipped with spring loaded latches, providing easy snap in/out core installation, no special tools required.
- Throw Pattern: 4 way throw
- Finishing: RAL 9010

OPTIONS

- Foam gasket on the back of the frame
- Square to round transition
- Any RAL color upon request
- Opposed blade damper -Model: (p. 2)
- Aluminum equalizing grid- Model: (p. 2)
- Plenum box (p. 3)
